PROFESSIONAL SUMMARY

Third-year B.Tech student in Computer Science and Engineering (Data Science) at JSS Academy of Technical Education, Noida, with academic and project exposure to Python, C, C++, Java and R. Interested in software engineering, problem solving, data structures and AI applications. Completed an Artificial Intelligence with Python internship programme and contributed to an academic Retrieval-Augmented Generation (RAG) Offline Chatbot project. Combines technical learning with teamwork, communication and campus leadership experience. Seeking an SDE internship or entry-level software development opportunity.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java, R
Computer Science Fundamentals: Data Structures, Object-Oriented Programming (OOP), Design and Analysis of Algorithms (DAA), problem solving
AI & Chatbot Concepts: Artificial Intelligence, Retrieval-Augmented Generation (RAG), chatbot development, IBM Watson learning pathway
Data Handling: R data frames, CSV/XLS/TXT import and export, matrix addition, subtraction, multiplication, transpose and inverse
Professional Skills: Communication, public speaking, teamwork, collaboration

EDUCATION

JSS Academy of Technical Education, Noida — B.Tech, Computer Science and Engineering (Data Science)
2024 – 2028 (Expected) | Third Year
Relevant Academic Areas: Data Structures, Object-Oriented Programming, Design and Analysis of Algorithms, R Programming

PROJECTS

RAG Offline Chatbot — Academic Mini Project
• Contributed to an academic chatbot project centered on Retrieval-Augmented Generation (RAG) and offline question-answering.
• Worked with a teammate on project development, coordination and preparation of the mini-project report.
• Focused on the role of retrieving relevant context to support grounded, context-aware chatbot responses.
• Participated in documenting the project objective, workflow and intended user interaction.

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern — E-Cell, IIT Madras / Coincent.ai (Remote)
December 2024 – February 2025
• Completed an AI-focused internship programme with Python-based training.
• Undertook learning activities in Artificial Intelligence with Python and received the associated certificate.
• Developed foundational understanding of AI concepts and their application through Python.

ACADEMIC TECHNICAL PRACTICE

R Programming Lab
• Practised importing and exporting structured data in CSV, XLS and TXT formats using R data frames.
• Implemented matrix operations using vector concepts, including addition, subtraction, multiplication, transpose and inverse.

LEADERSHIP & CAMPUS INVOLVEMENT

Executive Member — Impetus Student Society, JSS Academy of Technical Education
December 2024 – Present
• Support student-development initiatives, skill-building events, Model United Nations (MUNs) and debate activities.
• Contribute to campus engagement and collaborative student initiatives.
Member — ROBOIQ | Campus activities: Public Speaking, Debates and Basketball

CERTIFICATIONS

• **Build Your Own Chatbot – Level 1** — IBM
• **Artificial Intelligence with Python** — Coincent.ai, March 2025
• **C++: Object-Oriented Programming and Data Structures** — Profound Classes, August 2024
